Your support makes all the difference!

Become a part of our 6 year plan for just $20 a month and you can change the life of a family in India, like the Chimotte family!

Saroj, Ganesh, and their four beautiful children live in Central India and were struggling to meet their most basic needs. Through regular support and careful planning, this family was able to repair their home, educate their children, and start small businesses cultivating their land and raising oxen, cows, and goats. They were also able to get access to government programs for health care, housing, employment, and food subsidies. Instead of struggling for survival from day to day, the Chimotte family is looking forward to a bright future ahead.
Help bring a village to life!

The Community Development Program works with communities to find ways to improve their quality of life. Your support can help them as they work together to:

- Start small businesses
- Promote education
- Improve health
- Access clean water
- Provide housing
- Protect the environment

By choosing to support a community, you are offering them a chance to use their own skills, talents, and resources to create change. This experience helps them to develop strong leadership and build relationships with the local government and other institutions. Through this process, they are equipped with the tools they need to build strong, healthy communities with a bright future.

Please mail in this portion along with your donation. All donations are tax deductible
