On-the-ground support

Lily

Save A Family Plan donors provide on-the-ground support. Read more on the back »

On the ground: Lily's Work

What sets apart Save A Family Plan is how we work *directly* with the people who benefit from your generous support.

Lily is one of our Field Coordinators. She works face to face with people in remote communities where the water is unsafe and literacy is below 20%. Extreme poverty and diseases like tuberculosis and leprosy are a grim reality of life.

Lily personally meets with the people living in these areas. Thanks to our donors, she can be there to provide counseling, help arrange for vital healthcare, share practical suggestions for farming, and other sustainable ways to improve lives.

Your gift makes all this, and more, possible!
