Signature: _____

In the event that a program has already become fully funded, or where conditions delay or prevent program implementation, Save A Family Plan may redirect your donation to the most urgent needs.

Save A Family Plan (SAFP) is a Canadian-based registered charity with supporters across the globe. Together, our mission is to partner with families and communities in India to overcome conditions of extreme poverty.

Our trained on-the-ground staff work directly with people to help them regardless of their caste, creed, gender or political affiliation.

In collaboration with local voices and resources, our needs- and results- based development programs aim to transform lives through small business initiatives, skills training, clean water, sanitation, safe housing, and more.

Welcome to Save A Family Plan

We invite you to join us!

Together we empower amazing families living in poverty in India through participation in our

Family Development Program

&

Community Development Program

**PARTNERING WITH THE POOR
FOR A JUST WORLD**

Family Development Program

Community Development Program

This is our core program, the six-year-long “plan” during which donors pledge their direct financial support of \$22 per month. Each donor is matched to a partner family, and, over the course of six years, will hear from them with personal notes and photos to update them of their progress.

We partner with the “poorest of the poor” in India and every participant family is chosen through a formal application process. Factors considered include the ages of the children, health challenges of the family members, unlivable housing and sanitation conditions, and access to clean drinking water.

The participant families meet with our highly-trained local field staff. Together, they identify practicable, sustainable ways to meet their present needs and to build a brighter future—one with hope, where a family can thrive.

Families are empowered by employment skills training to start their own small business, money management, nutrition education, and access to local resources for housing upgrades, medical care, and education. Our compassionate staff also provide personal encouragement and support.

Our community-focused programs enable entire villages to work together to identify their own greatest needs and overcome poverty-related challenges using sustainable solutions.

Thanks to funding from Save A Family Plan donors, together with citizen involvement and local supports, impoverished communities are able to make vital improvements with hands-on community programs such as:

- Clean water and sanitation projects
- Educational programs and skills training
- Natural disaster rehabilitation
- Construction of toilets and housing
- Targeted projects such as pandemic recovery aid and leprosy rehabilitation

Participants are involved throughout every process and have a direct role in lifting their community from the cycle of poverty.

Visit www.safp.org to read success stories about partner families and communities. Our annual reports, blogs and other resources are also available.
