

2023 APPEAL FOR SAVE A FAMILY PLAN

SAVE A FAMILY PLAN

IN INDIA SINCE 1965

From poverty to possibility

Pictured from upper left, clockwise: a mother and child enjoy fresh, clean water; a family poses outside their new home; a boy learns basic math skills; a man receives a health-care checkup; women learn advanced tailoring and sewing skills; a woman poses outside new sanitary toilet facilities.

In addition to our Family Development Program, which works directly with families, Save A Family Plan's Community Development Programs address conditions related to poverty, on a larger scale. Please read the back of this page to see the work we have planned for 2024-25. There are many projects, large and small, that need funding. We hope that one of them will touch your heart and inspire you to pledge your financial support for the coming year.

Two of our newest programs focus on education for children in poverty. Education provides basic literacy and numeracy, important life skills, and long-term **possibility**: for child social development, for self-confidence, and hope for pursuing learning and some day earning a living wage.

From poverty to possibility

"I learned new skills, improved my [test] scores, found new friends, adapted new habits, enjoyed so many happy moments through my tuition center. Thank you Save A Family Plan, my teacher and coordinator, for filling me with dreams and determination for my future." - Pallavi, age 12

Program Spotlight: our programs in four rural villages provide evening classes for 100 children. Students receive study materials, personalized academic tutoring, and information about health, hygiene and nutrition. Parental involvement and trained educators ensure that each child gains from education, good study habits, and skills that hold great promise for a brighter future filled with **possibility**.

Save A Family Plan will also offer scholarships to 400 students so they can take courses that assist them in securing a career and good employment.

You've done so much and we thank you. Please consider financially supporting these and other incredible programs that help break the cycles of poverty and move lives from poverty to possibility!
