

2024 APPEAL for SAVE A FAMILY PLAN

SAVE A FAMILY PLAN

IN INDIA SINCE 1965

Building on Hope

The women participating in our Women's Empowerment Project hand-crafted platters with leaves that they harvested from local forests. They then sold these for use at banquets and weddings. This project is one example of how our participants can earn a livelihood with a small business that is sustainable and eco-friendly.

Not only do the women gain employment, build business skills, and important social connections, they are also able to create a product that is in demand, all-natural, and biodegradable. They earn an income with local materials and no harm to the environment.

We are introducing two additional eco-friendly projects in the coming year: Biogas Stove Systems and Household Solar Power Generation. Both programs focus on the health and everyday needs of our partner families by accessing the abundant clean energy sources that already exist, but are just beyond their reach due to poverty.

Together let's build on hope with sustainable solutions to poverty

Building on Hope

Project Spotlight: Biogas Stove Systems

For a family living in poverty, biogas is more than just converting waste into a valuable heating source. Less garbage means less disease and fewer vermin. A fuel source that is steady and reliable, when electricity is not available, can mean being able to boil water for food and drink. This eliminates the risk of potentially deadly diseases such as Typhoid, Hepatitis-A, and diarrhea, which are leading causes of death for children under 5.

A home biogas system digester allows people to convert organic waste into biogas, which can then be used for cooking or heating.

Project Spotlight: Household Solar Panels

India is a country that is technologically advanced. And yet, for people living in extreme poverty in remote rural areas, there is often little or no access to electricity. Solar-generated energy transforms the lives of a family by providing them with power for cooking, interior lighting for the children to study, exterior lighting to ward off snakes and rodents, and electric fans to provide some relief from the intense heat.

SUPPORT OUR COMMUNITY DEVELOPMENT PROGRAM

Projects planned for fiscal year 2025-2026:

- Clean Water Purifiers (\$60 each)
- Children's Education (\$70/student)
- Biogas Stove (\$350 each)
- Solar Panels (\$950 each)
- Women's Empowerment (\$500/person)
- Sanitary toilets (\$600 each)
- House Construction (\$6750 each)

GIVING OPTIONS

Thank you for your generosity!

Please use this form or donate at www.safp.org/donate or via etransfer@safp.org or QR

I wish to make a **one-time gift** of:

- \$25 \$50 \$250 \$500 \$1000
Another amount of \$ _____

I wish to pledge a **monthly gift** of:

- \$10 \$25 \$50 \$100 \$250
Another amount of \$ _____

PAYMENT OPTIONS

Visa MasterCard Cardholder: _____
Card# _____ Expiry: ____ ____ CVV: _____

Cheque or Money Order
Payable to "Save A Family Plan"

SIGNATURE

- I am interested in naming SAFP in my Will
 I wish to donate stocks, bonds, or other assets

In the event that a program has already become fully funded, or where conditions delay or prevent program implementation, Save A Family Plan may redirect your donation to the most urgent needs.
